

Tiger Tower Services

Tiger Tower is a highly specialized premium provider of complete process tower and column repairs and revamps. We also provide other key services, including weld overlays, nozzle installations, inspection services, and tower packing services. Headquartered in Conroe, Texas, Tiger Tower was founded in 2006 and primarily serves end markets in the refining, petrochemical, chemical, gas, and fertilizer industries.

Just as tigers are on the endangered species list, so too are companies with the knowledge, skill, and experience of Tiger Tower. We provide specialized skills for tray/packing installation, tower maintenance, and plant turnaround projects. We're responsive, cost effective, and reliable, with a reputation for quality, safety, and on-time completion.

Tiger provides everything from fast mobilizations or emergency services for a single tower to service for plant-wide turnarounds; from a complete retrofit of your vessel's internals to modifications to your tray assemblies, nozzles, and distributor's accumulators. We've got you covered.

At Tiger Tower, we pride ourselves on:

- Quality workmanship
- High productivity
- Attention to detail
- A culture that values safety first and foremost
